

INTEROFFICE CORRESPONDENCE

DATE: June 11, 1991

TO: J.E. Evered, Director, Enviromental Management,
Bldg. T130B, X4924

FROM: R.B. Hoffman, Manager, Classification Office, ~~Bldg. T893B, X4598~~ *BX*

SUBJECT: DOCUMENT CLASSIFICATION REVIEW WAIVER

In response to your letter of June 3, 1991, the Classification Office has reviewed your request for a classification review waiver for Enviromental Management (EM) procedures and QA plans. Your exemption request for documents created by Enviromental Management for enviromental data has been approved at this time for those categories explicitly outlined in your letter and listed below:

1. Detailed instructions for obtaining enviromental ground water samples, ground water levels and well completion information from onsite wells.
2. Detailed instructions for obtaining building specific effluent and ambient air quality data.
3. Maintenance and calibration instructions for equipment used to gather enviromental samples.
4. Detailed instructions for obtaining surface water samples from seeps, streams and onsite holding ponds.
5. Enviromental data entry & handling procedures for laboratories analyzing and recording data.
6. Data validation and verification instructions.
7. Onsite and offsite laboratory analysis instructions.
8. Analytical instructions to laboratories performing work for EM.

We will be glad to discuss in detail any additional proposals with you at your convenience.
